Founded in 2012, wikifolio.com is a dynamic and rapidly growing FinTech in Vienna and the best-known company for B2C investments in German-speaking countries.

For our dynamic, continuous growth strategy, a systematic exploration of company, market and product related data is highly relevant.

For this, we need smart people, who are fond of data, excited about ongoing challenges in different fields like Marketing, Product Management and Finance and who want to be part of an outstanding team with high aspiration. With your passion for R, Mathematics, Statistics, Financial Engineering and Quantitative Finance, combined with your affinity for digital marketing and capital markets, we offer you an optimal playground for all your strengths and interests.

Responsibilities

- Provide analysis services and enhance data driven culture
- Design and development of data-driven features for our platform with R (e.g. portfolio analysis and learning functionalities, sentiments and predictions, visualizations, back-testing) including prototypes or production-ready code
- Further development of corporate KPI system
- Help marketing, product and finance team with their data needs
- Ensure data best practices from business and technical perspective
- Deliver ad-hoc analysis via SQL, PowerBI, R

Requirements

- Several years of Data Science experience and deep knowledge in Financial Engineering and/or Quantitative Finance, preferential with B2C-focus (e.g. retail)
- Deep affinity & passion for R
- Profound mathematical and statistical skills (e.g. time series analysis) and ability to develop algorithms in R
- High interest and skills in creating actionable knowledge out of data
- Used to relevant data science concepts (supervised/unsupervised machine learning, packages like ggplot2, shiny, zoo, ...)
- Very experienced in relational databases (SQL) and BI tools, NoSQL is a plus
- Extraordinary analytical skills
- Fluent English, ideally fluent in German as well (corporate language is English)
